

# New Drawer 30

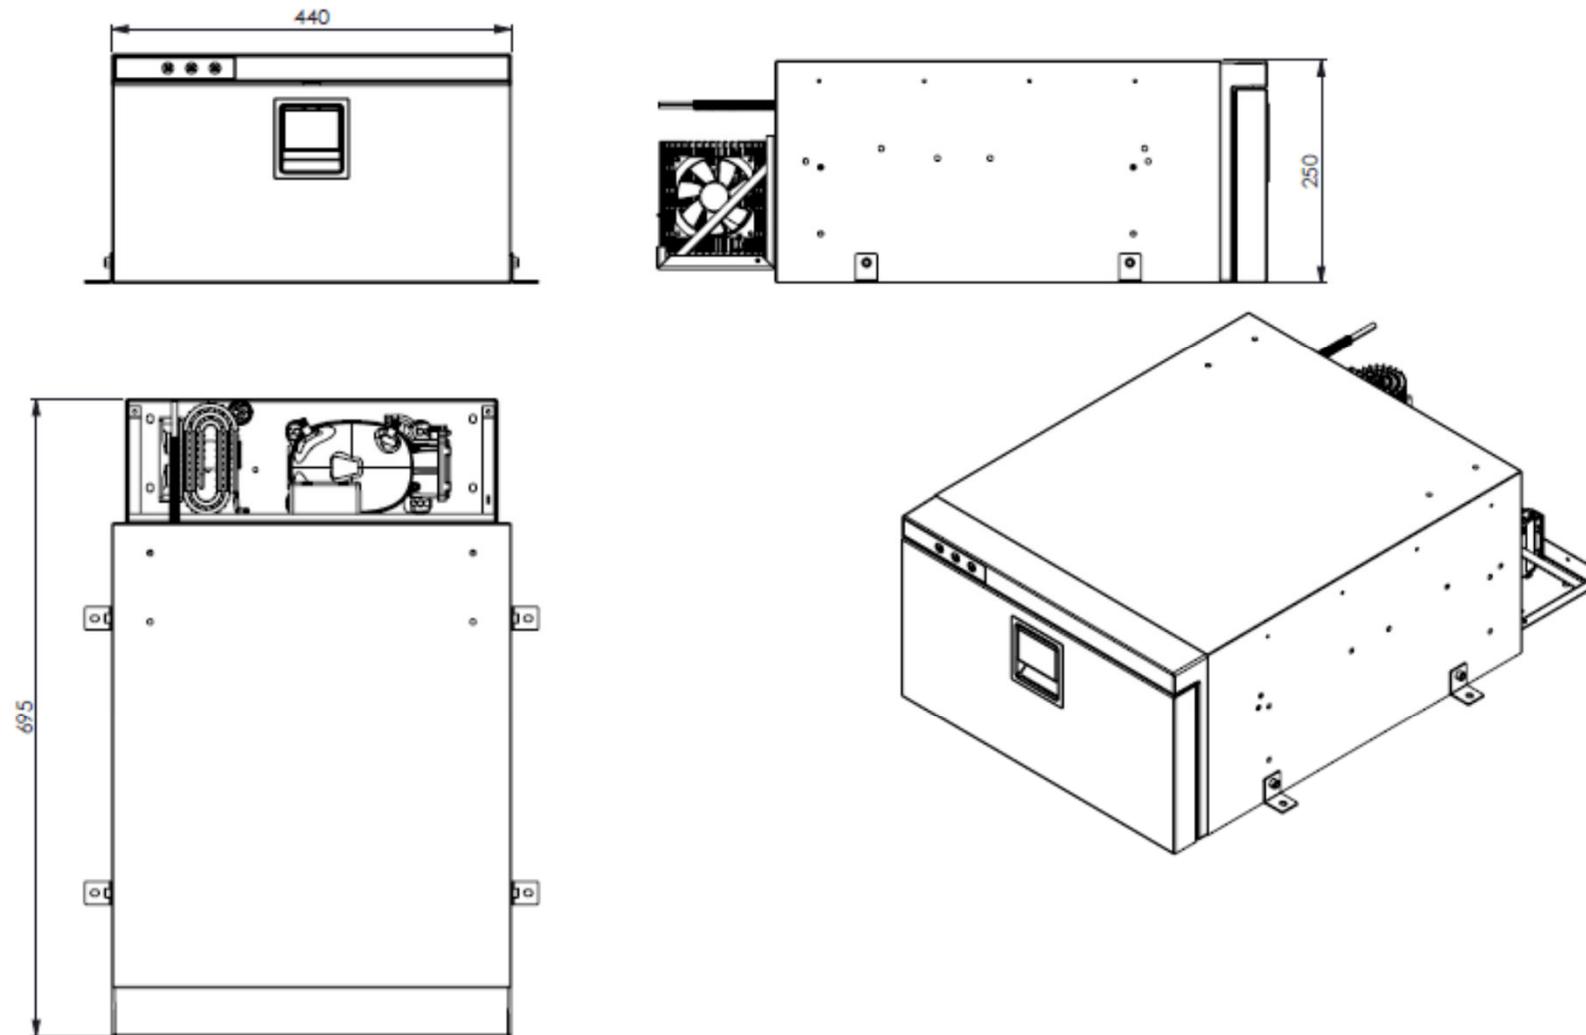

---

PRODUCT INFORMATION No. 2018-02

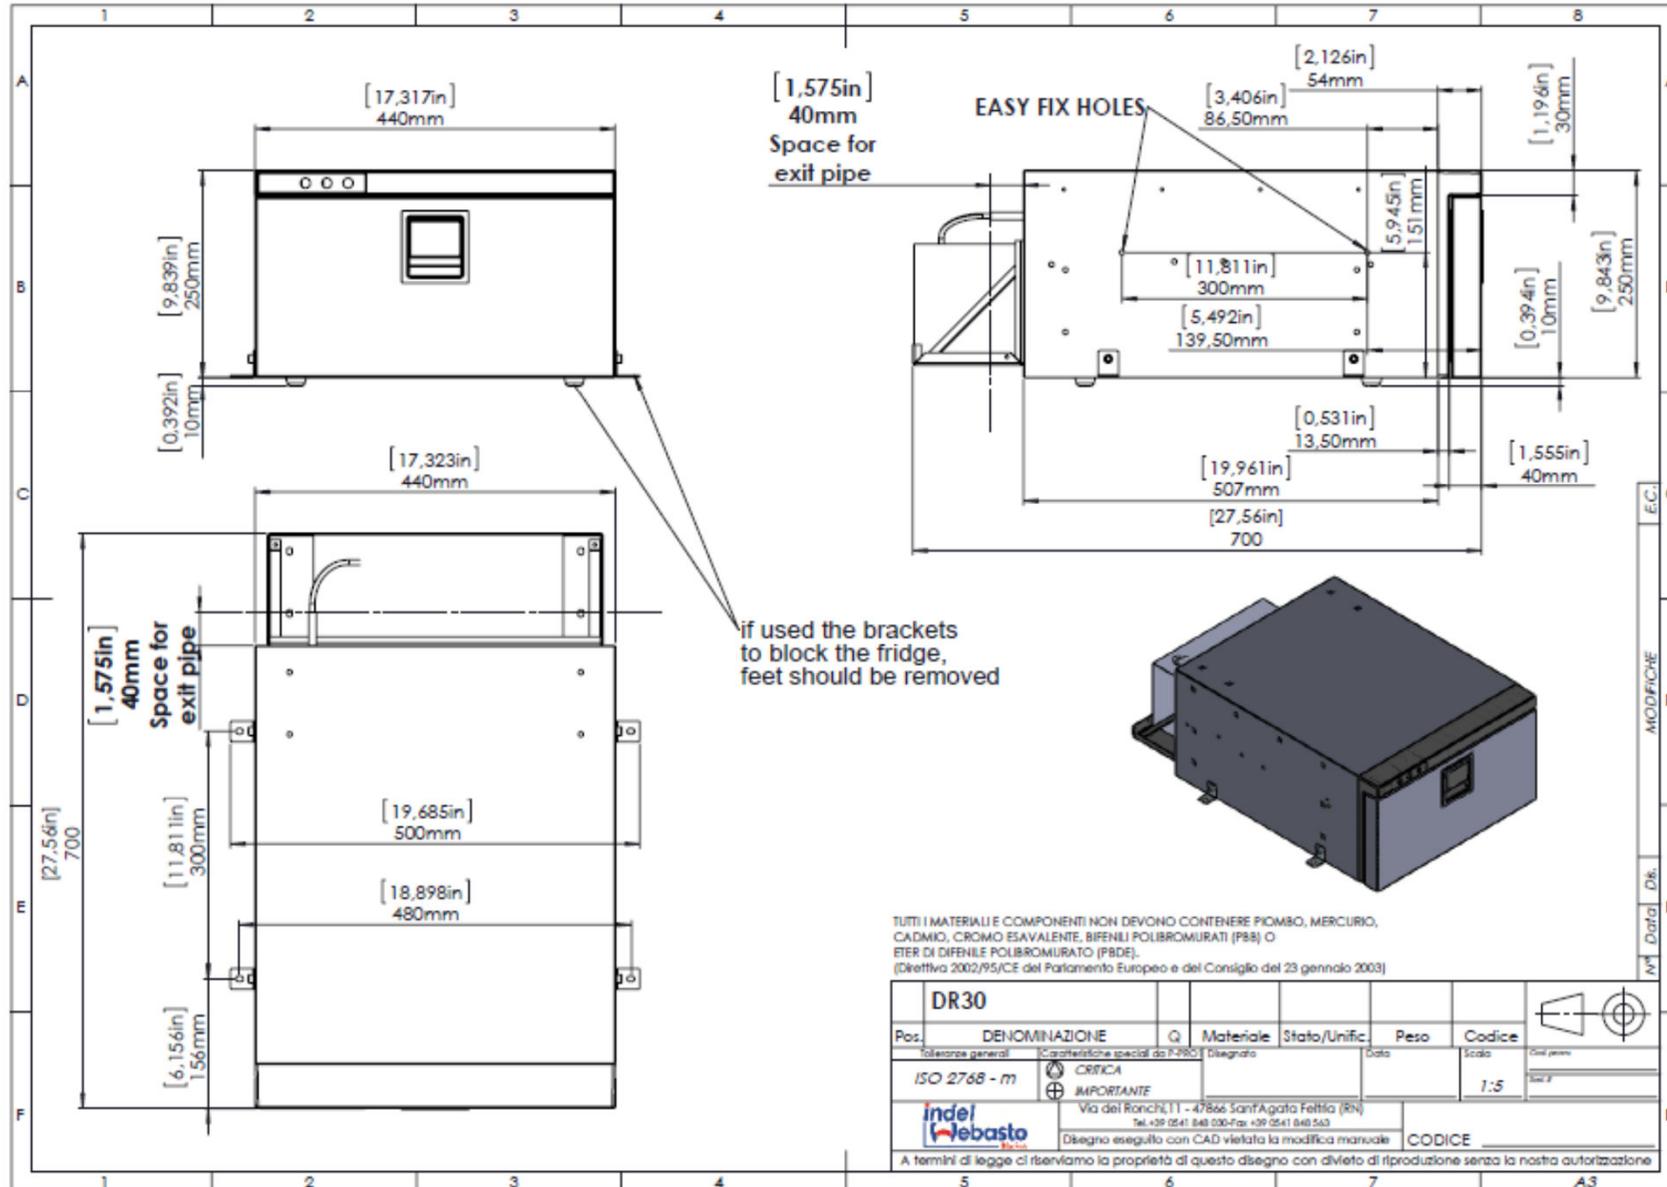

Benedetta Rinaldi

**Indel Webasto Marine**  
Sales & Marketing

- 
- ✓ Indel Webasto Marine, first company to introduce the drawer refrigerator concept on the market, has the pleasure to present a new product characterized by exclusive premium features, called Drawer 30
  
  - ✓ The door design will have the same features of the Cruise Elegance line in order to grant the total consistency within the range.
  
  - ✓ Two different products, part of the same family will be available:
    - Drawer 30 lt. Silver version
    - Drawer 30 lt. Black version
  
  - ✓ It will work as a fridge, climatic class T

Three-Dimension View of Drawer 30

Drawer 30 SILVER

Drawer 30 BLACK

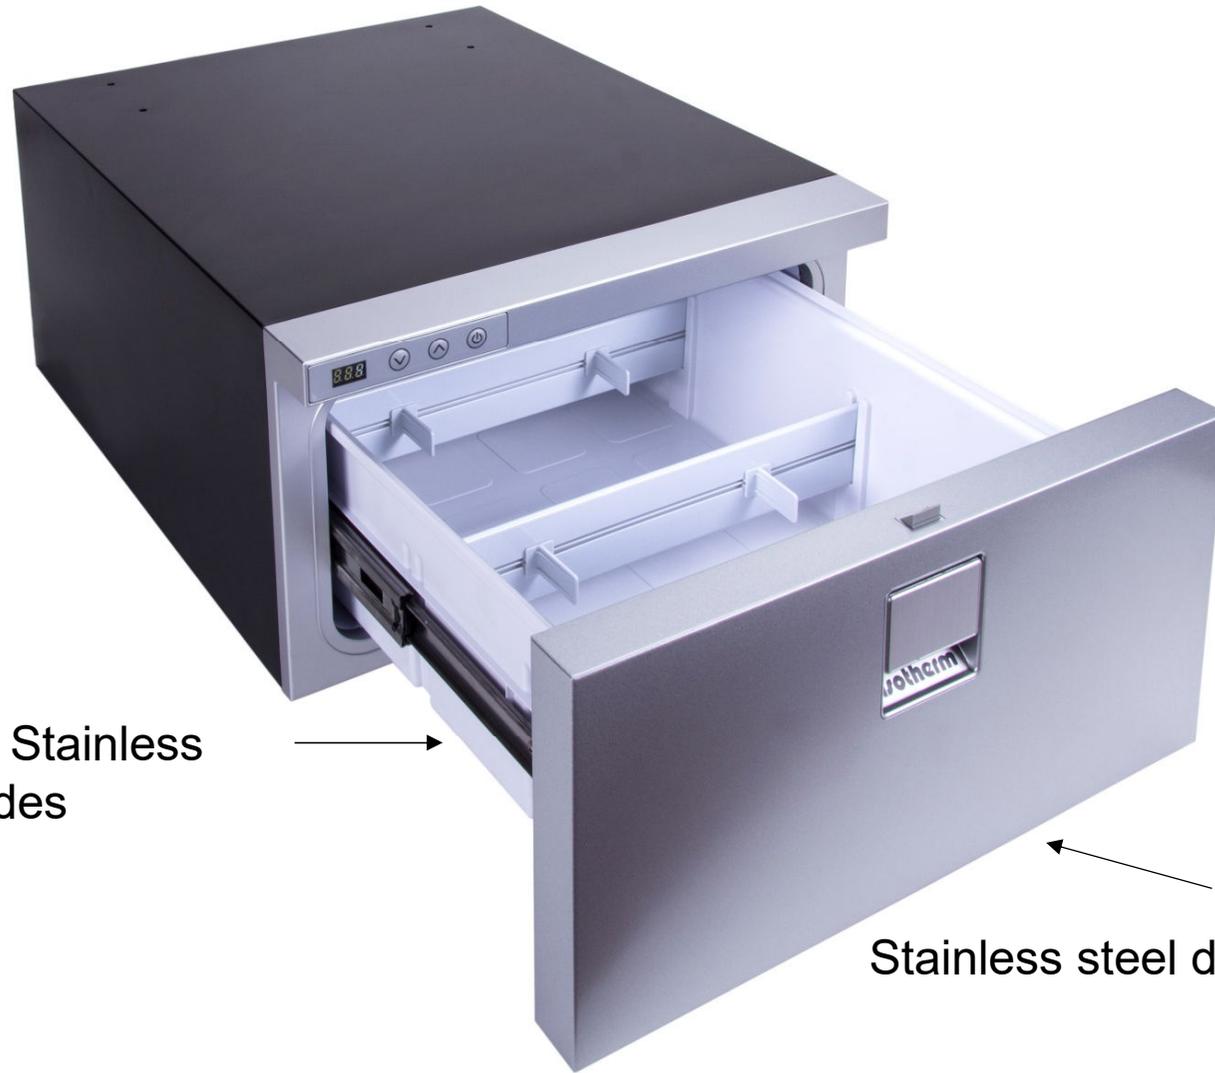

Drawer 30 BLACK

Two fridge models will be available, identical per outer dimensions and compressor' specification.

- Black version: basic version for internal fridge applications
  - Black steel door
  - Steel guides
  
- Silver version: premium version for marine grade applications
  - Stainless steel door silver painted
  - AISI 304 Stainless steel guides

AISI 304 Stainless  
steel guides

Stainless steel door silver painted

## Features and Benefits

- Both versions are equipped with SECOP BD 1.4F-FSD 12/24V fixed speed compressor, the smallest and lightest DC unit on the market. Specially designed for **maximum efficiency** and **reliability** and minimize installation space
- Compressor mounted on a specific new «L» bracket on the back of the fridge for both models
- For qualified personnel, it is feasible to mount it in 3 other positions: right, left, top handling the compressor group and especially the piping very carefully to avoid damages. We recommend that this shall be done only by shipyards or bodybuilders and only after being taught thoroughly by our team

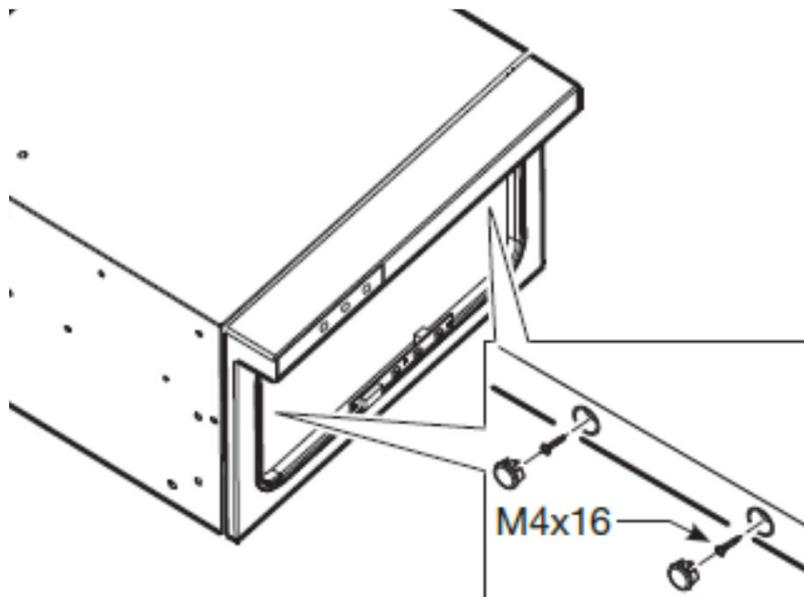

## Features and Benefits: Digital Display

- Three digits digital display characterized by the high brightness that makes possible the selection of temperature by the final customer
- Splash-proof IPX5 front protection with built in installations
- Temperature range: +5° C to + 10°C

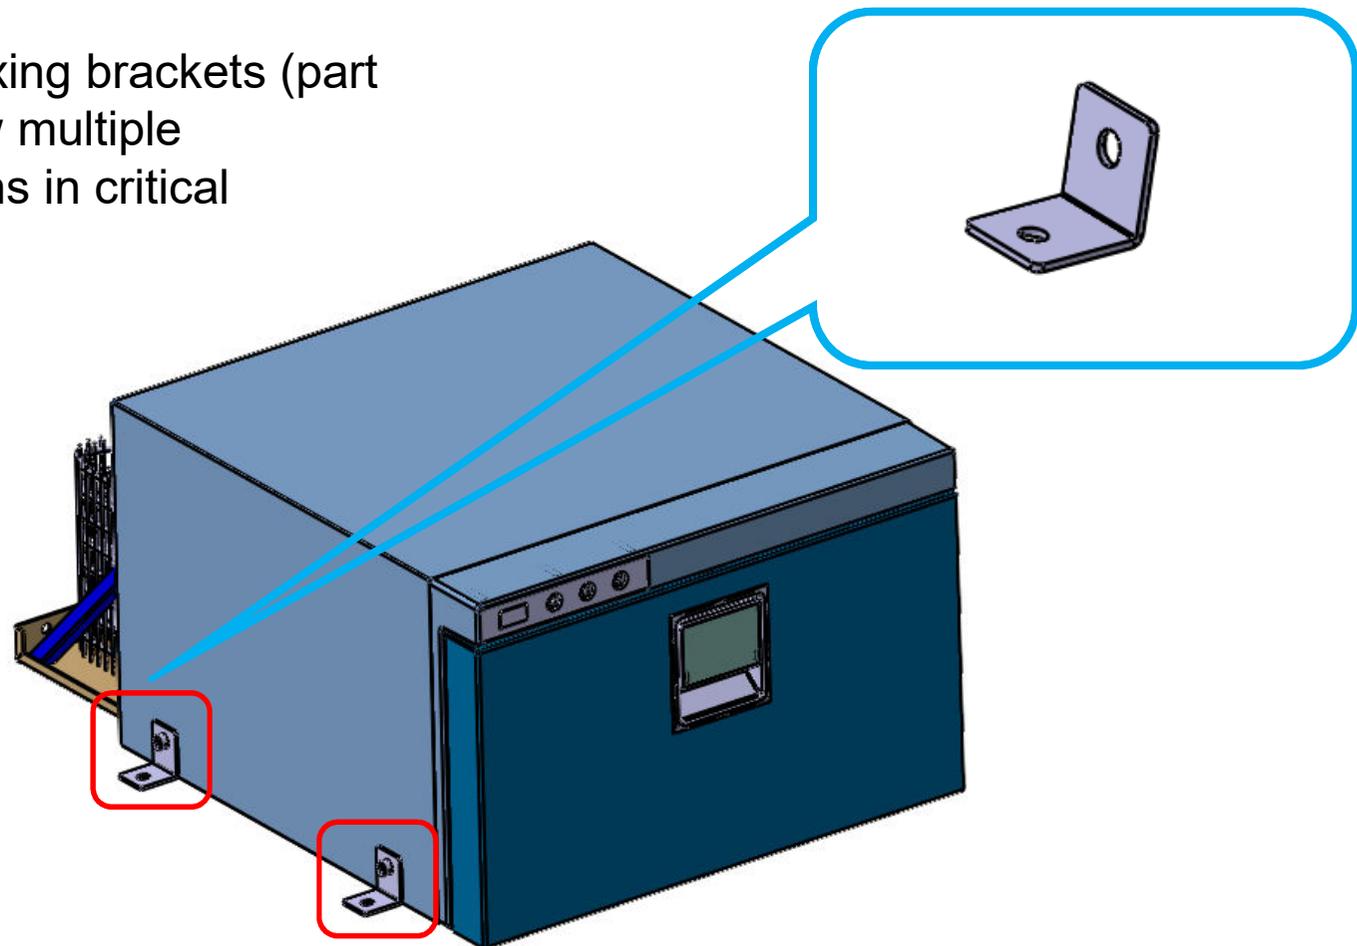

## Features and Benefits

- Easy fix system to easier the device installation even without a mounting frame: fridge installation from the interior
- The external flange becomes a design accessory, not needed for installation
- Proper bushing structure prevents insulation's crushing

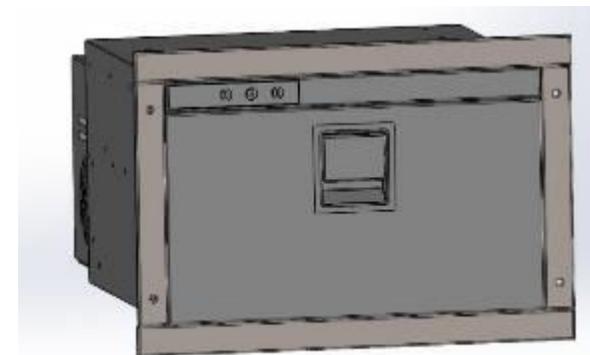

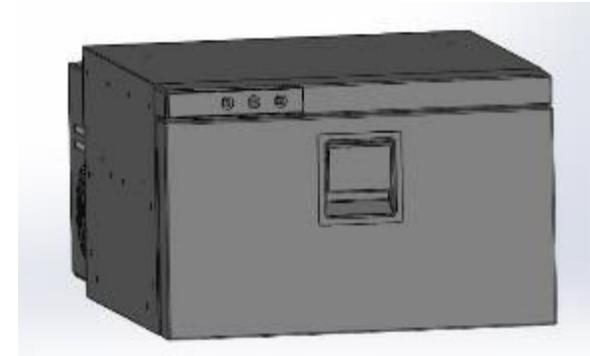

## Features and Benefits

- Alternatively, 4 fixing brackets (part of BOM), to allow multiple installation options in critical applications

## Features and Benefits

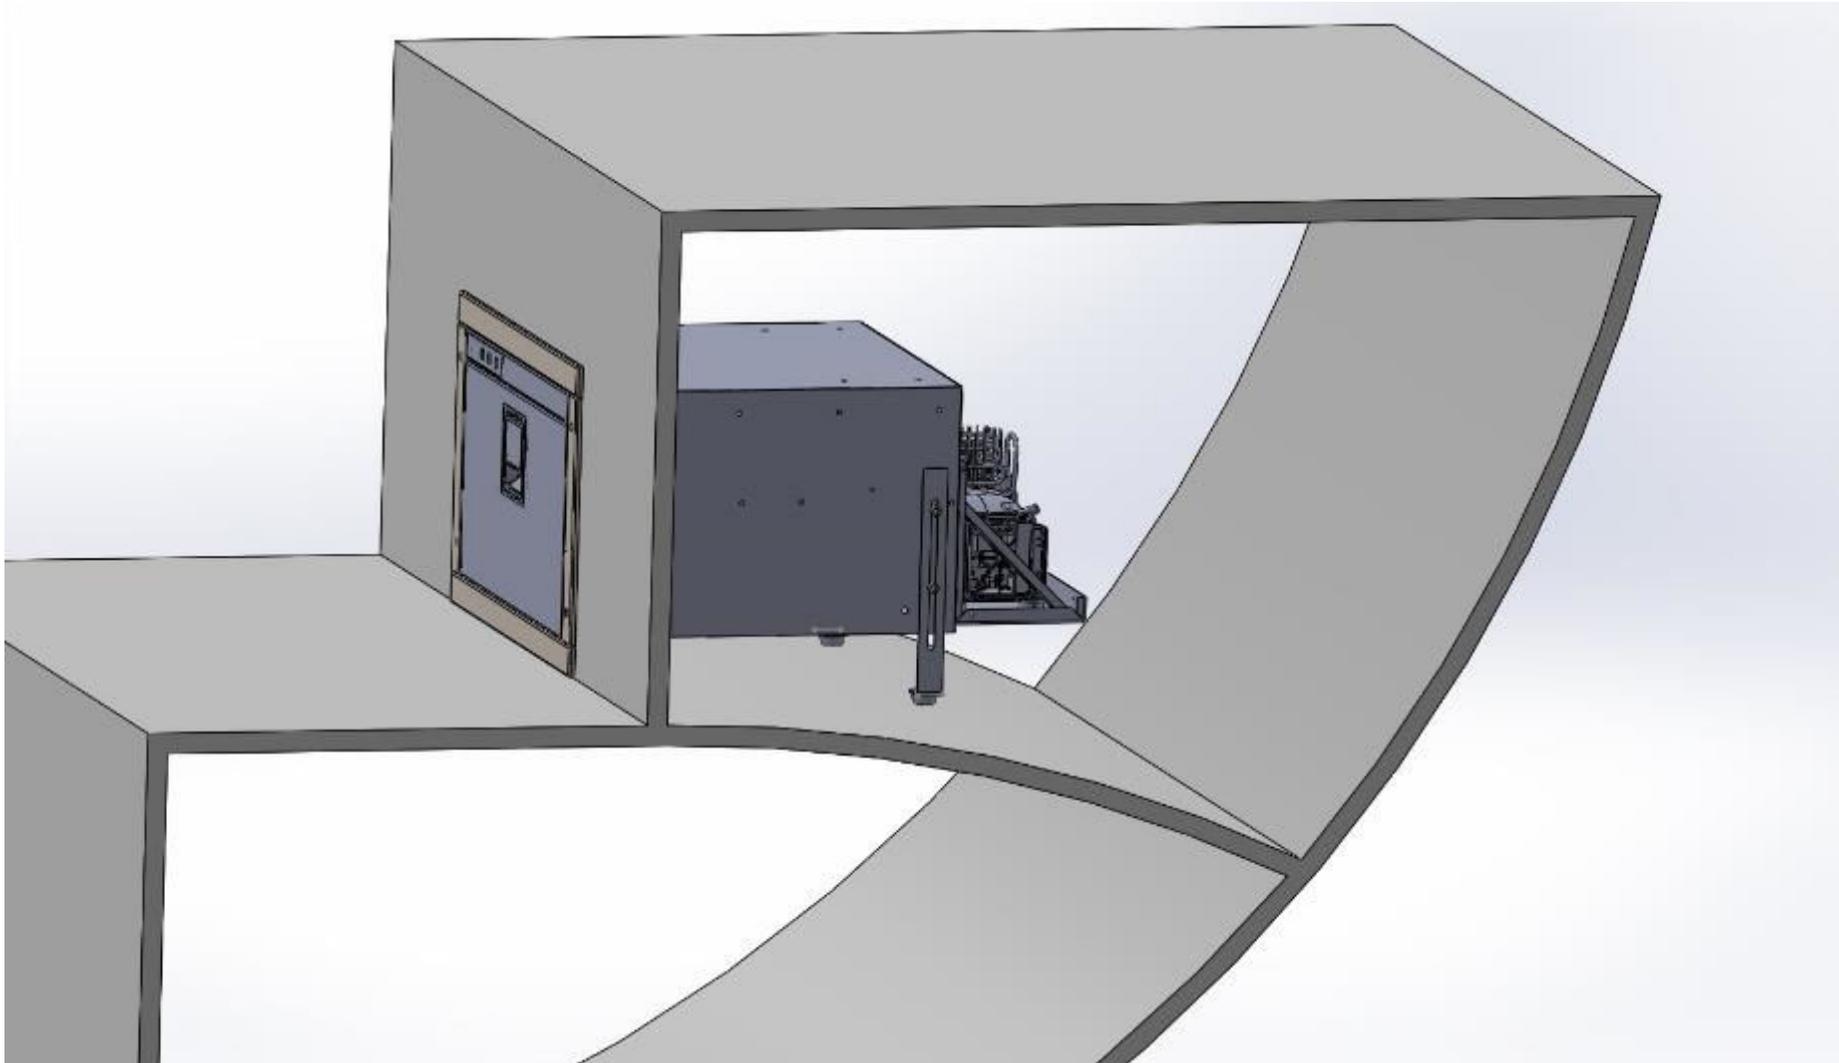

- Drawer 30 Black: black steel door, sliding guides in steel. Delivered as standard without fixing frame (easy-fix look)
- Drawer 30 Silver: door in stainless steel AISI 304 silver painted, sliding guides in stainless steel AISI 304. Delivered as standard without fixing frame (easy-fix look)
- 4 side mounting frame as optional, in two versions:
  - Black steel painted
  - Aisi 304 Inox Silver painted

32°C	-6	-6,70	-5,55	100%
38°C	5	2,90	4,74	51,21%
43°C	5	3,40	4,90	79,36%

- ✓ In typical applications on small boats, the product is often installed on outer surfaces of fiberglass. It may happen that wooden tops on which the product can be applied via the easy fix system are missing, or by simply placing it on the bottom.
- ✓ When the basic surface on which the product leans is not regular, you can align the flange and compensate the rear misalignment by means of these adjustable rear feet, having a setting range from -18 to +20 mm
- ✓ With this product you will be able to ensure your refrigerator a secure base in any support surface condition.
